

# Abed Al Rahman Akel

FullStack Web Developer

## About Me:

I am a 20 year old full-stack web developer who commenced my educational journey through University and Udemy courses, with 1 year remaining to fulfill my Computer Science bachelor's degree. My greatest expertise lies in HTML, CSS, and JavaScript in which I possess extensive proficiency. My authentic enthusiasm and designing experiences propels me to create exceptional digital experiences for others.

## Education (Sept 2021 – Feb 2025):

Currently enrolled at Lebanese International University, I am pursuing a Computer Science bachelor's degree with one year remaining. My curriculum encompasses Java, HTML, CSS, JavaScript, SQL, Dart, C, and C++. Additionally, my studies contain problem-solving, data structures, algorithms, and program development, among other subjects.

## Internships:

### *CodSoft Company:*

Commenced an internship at CodSoft engaging in various tasks that involved the application of HTML, CSS, and JavaScript.

- Created a landing page template for an X company/brand
- Created a full portfolio website including my education, skills and other information.
- Other minor tasks were included.
- Recreated some of my old projects too for the use in the portfolio.
