Abed Al Rahman Akel

F r o n t e n d   W e b   D e v e l o p e r

About Me

I am a frontend web developer who commenced my educational journey through University and Udemy courses, with 1 year remaining to fulfill my Computer Science bachelor's degree. My greatest expertise lies in HTML and CSS, in which I possess extensive proficiency. My authentic enthusiasm propels me to create exceptional digital experiences for others.

Education (Sept 2021 – Sept 2024)

Currently enrolled at Lebanese International University, I am pursuing a Computer Science bachelor's degree with one year remaining. My curriculum encompasses Java, HTML, CSS, JavaScript, and C++. Additionally, my studies contain problem-solving, data structures, algorithms, and program development, among other subjects.

Internship (24th July – 24th Augest)

CodSoft Company:

Commenced a one-month internship at CodSoft engaging in various tasks that involved the application of HTML, CSS, and JavaScript.

- Created a landing page template for an X company/brand
- Created a full portfolio website including my education, skills and other information.
- Created a calculator simple program.
- Recreated some of my old projects for use in the portfolio.
